

High productivity machines for heavy-duty cleaning

With disc or cylindrical brush models, Nilfisk BR 1100/1100C/1100C-XL is perfectly suited to all heavy-duty large area cleaning tasks. Ideal for cleaning in airports, car parks, commercial premises, warehouses and production manufacturing areas.

Gives superior results with 100/107 cm scrub path. BR 1100C-XL with dual side brooms sweeps a 130 cm path and does a great job where you have to clean along walls or racking.

A curved, pivoting squeegee leaves floors dry and safe. Up-front seating, adjustable tilt steering with ergonomic designed controls ensures easy operation. Available with a large variety of customer options, such as pre-sweep, extended scrubbing system and overhead guard protection.

Choose the BR 1100 disc to benefit from the large cleaning surface of pads or disc brushes on smooth even floors.

Cylindrical brush models (C and C-XL) are the best choice for wet sweeping, dry sweeping, deep cleaning of tiled floors and for cleaning unsealed, rough or uneven floors.

PRODUCT FACTS

- Cleans up to 6200 m² per hour
- Simple to drive (one touch operations)
- Brushes and squeegees easily changed without tools
- Rugged construction gives long machine life and low operating costs
- Machine is sold without battery, charger or brushes
