

#### Rugged construction for any cleaning job

Nilfisk GM 80P is light in weight, but a heavy-duty performer. Mounted on a strong steel trolley with large rubber wheels, the machine is easy to manoeuvre. Ideal for e.g. production lines, chemi/pharma industries, hospitals and offices.

The sturdy aluminium container means that the vacuum cleaner is almost indestructible and therefore especially suitable for rough and heavy duty cleaning. For special applications, choose between two types of special exhaust filters: Nilfisk HEPA or Nilfisk ULPA, also protecting against allergies.

#### PRODUCT FACTS

- Impressive 2100 cm<sup>2</sup> main filter for even and stable airflow and vacuum, even after long use
- Lightweight but built for years of heavy duty cleaning
- Virtually indestructible aluminium container
- HEPA/ULPA filters optional
- Bagless operation possible
- Comes complete with hose and tubes, but no floor nozzles or accessories
